DETAILED ACTION

1. The following is an examiner's statement of reasons for allowance:
2. With respect to claims 1-28, the prior art of record fails to show or suggest a multi-frequency interferometry method comprising of all the steps as presently claimed wherein the number, N , of wavelengths is calculated, where N is greater than or equal to 3 and then selecting an optimum series of values of the wavelengths in combination with the rest of the claim.
3. With respect to claim 29, the prior art of record fails to show or suggest a multi-frequency interferometer comprising of all the elements as presently claimed wherein the fringe projection apparatus generates an optimum series of projected wavelengths, the values of the wavelengths being such that, for a known level of phase noise in the apparatus, and a chosen number of projected wavelengths in said series, absolute fringe orders in the deformed fringe patterns are measurable over a maximum measurement range.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
